DATE OF EXAMINATION: January 6, 2018

LAST DATE TO FILE APPLICATION: December 4, 2017

APPLICATION FEE: There is a \$12.50 non-refundable fee for each examination. The fee must accompany your application. You may pay in cash at the City Treasurer's Office or send a check or money order payable to the City Treasurer. Be sure your name is indicated along with the examination number on your check or money order. This fee will be waived for unemployed heads of households. **NO REFUNDS WILL BE MADE** if your application is disapproved. Be sure to compare your qualifications carefully with those stated below and file only for examinations for which you qualify.

RESIDENCY REQUIREMENT: There is no residency requirement for this exam. Preference in appointment may be given to City of Tonawanda residents. (Pursuant to subdivision 4-a of Section 23 of the Civil Service Law and the City Code of Ordinances, to be considered a resident, applicant must have been, at the time of certification for appointment and for at least four months prior thereto, a resident of such municipality.)

MINIMUM QUALIFICATIONS: Four (4) years of full-time permanent competitive status as a City of Tonawanda Public Safety Dispatcher immediately preceding the date of the written exam.

GENERAL STATEMENT OF DUTIES: The primary responsibility of an incumbent in this class is to receive and record 911, police, fire and emergency medical service (EMS) calls and dispatch the appropriate police officers, firefighters, medical personnel and equipment in emergency situations. Employees in this class render assistance in answering questions posed by duty staff relative to equipment, policies and procedures and lead the Safety Committee. Employees in this class also function as a training coordinator responsible for development and institution of various types of training programs. An employee in this class is also required to prepare various reports and records when not performing dispatch duties and must have the ability to multi-task. The work is performed under the general supervision of the Police Chief, Fire Chief or their designees with considerable leeway provided for the use of independent judgment in reacting to emergency or life threatening situations. Supervision of others is not ordinarily a responsibility of the position. Does related work as required.

SUBJECTS OF EXAMINATION: A written test designed to evaluate knowledge, skills and /or abilities in the following areas:

1. Coding/decoding information: These questions test for the ability to follow a set of coding rules. Some questions will require you to code information by converting certain information into letters or numbers. Other questions will require you to decode information by determining if the information that has already been converted into letters or numbers is correct. Complete directions will be provided; no previous knowledge of or training in any coding system is required.

2. Following directions (maps): These questions test your ability to follow physical/geographical directions using street maps or building maps. You will have to read and understand a set of directions and then use them on a simple map.

3. Retaining and comprehending spoken information from calls for emergency services: These questions test for your ability to retain specific information that is heard in calls for emergency service, such as a street address, or to comprehend spoken information from emergency service calls, such as determining the location of a site in relation to landmarks. Simulated 911 calls will be played on audio CD. Immediately following each call, candidates are given audio instructions identifying which questions they

are to answer within the test booklet. The questions that candidates are directed to answer for each simulated call will not be in sequential order. Candidates will need to retain and comprehend the information and instruction provided in this portion of the test to respond appropriately to the questions asked and to determine which questions to answer. The time allotted to answer these questions will be limited. At the end of each answer period, the CD will automatically play the next call. Note paper will be provided. Candidates will be permitted to take notes and to refer to them when answering the questions.

4. Radio operations and dispatching procedures: These questions test for knowledge of two-way radio systems and operations, and may cover dispatching procedures when appropriate.

5. Understanding and interpreting written material: These questions test how well you comprehend written material. You will be presented with brief reading passages and will be asked questions about the passages. You should base your answers to the questions only on what is presented in the passages and not on what you may happen to know about the topic.

However, candidates may find information in the publication "How to take a written test" helpful in preparing for this test.
